## Welcome and Commence:

## Review and Approval of Safe Walking Plan--Amy Adams

Safe Walking Route needs to be approved every year. Our boundaries have not changed, so our route has not changed. Our parking lot has changed, but that has been addressed on the map, so we are good with that.

SCC signs off on it, then PTA reviews it, then it gets sent on to the district and then city. After that, it will be posted to the school website.

## Other:

Ronna Hoffman, discussion:

Lunch money does not get paid. We have no intention of not feeding children who have an outstanding balance--children will still get fed.

We need to find a way to pay the money--currently the balance in well into the multiple hundreds (last month was 5/600??). There is a modified lunch that costs ½ the price of the regular lunch (small sandwich, fruit/vegetable, milk). It is now a principal's choice whether we offer that option; it is whether the parents are charged the ½ price or the full price meal.

--we have the option of sending it to collections: warning letter before collections

--calling DCFS?

\*\*\*continue to make the alternative lunch available for the students.

Adjourn 3:43 PM
